# Want to work in tech?

## Join an AZNext program at ASU!

AZNext's **Tech Project Coordinator** program wants to connect our skilled students to your organization!

After an intensive 8 weeks of training, participants will master skills in professionalism, IT, and project management as they earn CompTIA IT Fundamentals (ITF+) and Project+ certifications.

After completing training, you will be ready to be hired by a partner company as a full-time tech project coordinator.

### Participating in AZNext offers benefits such as:

-  Timely training in specific & relevant industry skills
-  Low to no cost for training and credentialing
-  A structured pathway into a fast-paced tech career
-  Benefit from employer mentorship, AZNext support, a network of diverse tech professionals

**To learn more, connect with AZNext today!**

## What is a Tech Project Coordinator?

A tech project coordinator serves as liaison between business and technical aspects of projects. Working with a team, they plan, initiate, and manage information technology (IT) projects to assure deadlines, standards, and cost targets are met.

### Fast Facts

**Average Salary**  
\$61,504 (U.S.)

**Job Growth**  
Faster than average, with an estimated 6% growth in the next 10 years.

**Career Trajectory**  
Following training, begin as a Project Coordinator

### Questions?

Email: [AZNext@asu.edu](mailto:AZNext@asu.edu)

### Program Timeline

The Tech Project Coordinator program has three sessions per year, beginning in **Spring**, **Summer**, and **Fall**.

Courses are held fully online, combining self-paced modules with live instruction in the evenings.

To succeed in the program, participants must complete all assignments and assessments, including CompTIA ITF+ and Project+ credentials that require an in-person exam at a testing center. Once completed, participants will be matched to employers for a minimum one year of paid on-the-job training.

### Admission Requirements

Participants must be:

- 17 years of age or older
- A high school or GED graduate
- Eligible to work in the U.S.
- Interested in technology and project management
- Able to commit to part-time or full-time work with an employer following the 8-week course
